

4WD by DANGEL

*Take on any terrain
with ease*

Discover the range of
Dangel 4x4 **commercial vehicles**

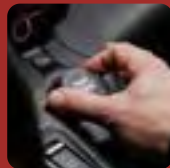

A vehicle that meets your needs:

With the 4WD by Dangel range, you can reach even the most remote job sites in comfort and safety – for both you and your equipment.

In short, it makes your working day easier.

- **Automatic 4x4 transmission** to reach your work sites in all conditions,
- **Enhanced safety** thanks to the raised chassis and underbody protection,
- **Secure load area** to keep tools and equipment safe,
- **Comfort and ergonomics** tailored to daily professional use.

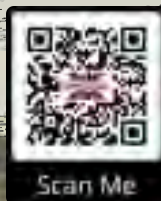

Two modes, maximum efficiency

In 'AUTO' mode, the 4x4 system engages automatically depending on traction.

In 'LOW' mode, torque is boosted for optimum control at low speeds.

The "low range first gear" reimagined by Dangel.
