

Peugeot Expert/Traveller

3 versions: XS, L & XL

Engine: BlueHDI 120 and 150 HP

Manual gearbox

Not compatible options: ETG6 Gearbox, BlueHDI 95, 115 and 180 hp engines, Peugeot tow bar

The Trek solution:

Reliable: with the Expert/Traveller Trek and its 4 cm raised body, difficult terrains aren't difficult anymore!

Its assets: on road as well as tough terrain, it progresses in an efficient way (forest, mountain, etc). The Expert/Traveller Trek ensures a very good road holding and provides a remarkable mobility for a two wheel drive vehicle thanks to an under-engine protection plate and a motricity optimization system on difficult terrain: the Grip Control (5 versions available according to ground type).

Simple and elegant: resulting from its raised suspensions, the Expert/Traveller Trek dominates difficult terrain and allows safe and comfortable driving on regular roads without the driver having to intervene.

Economic: the Expert/Traveller Trek is a 100% mechanical development with parts which don't require specific maintenance which means an economic vehicle!

Warranty and maintenance:

2 years (Unlimited mileage).
Service intervals as per base vehicle.

Mandatory options:

Expert: Grip Control (ZHCG) and Rough Road Package (GA04)

Traveller: "motricity pack" (J4TA/J4TB/J4TC)

Avantages

- √ 40 mm raised suspension
- √ Low CO² emissions and fuel consumption
- √ Comfort
- √ Crossing capacities on tough terrain
- √ Under body protections

Useful information

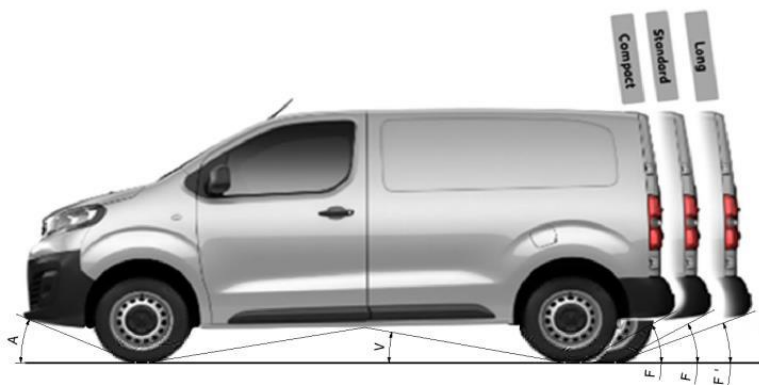

Dangel Conversion lead-time :

5 weeks (after vehicle reception // transport excluded)

EU Type approval e2*2007/46

2nd step COC for each vehicle

Off-road values

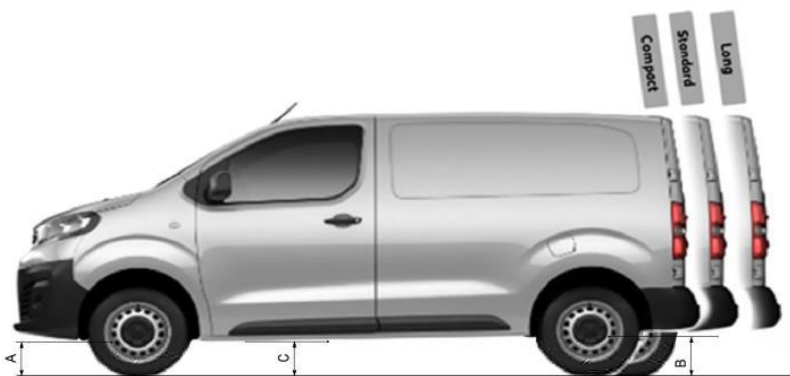

Unloaded off-road values

	Front angle (A)	Central angle (V)	Rear angle (F)
XS	23.2°	23.4°*	23.2°
