

Peugeot Partner

LCV

2 versions: Van, Crew Cab

Engine: 1.5 BlueHDi 130 hp (with Stop&Start)

Manual 6 speed gearbox

Incompatible: Passenger car, ETG8, Peugeot original tow bar, BlueHDi 75, BlueHDi 100, Puretech 110 engines

The “Trek” 2WD system:

Mobile and reliable : with Partner Trek and his 205 mm ground clearance, the difficult grounds become easy!

- Engine skid plate and Grip Control (standard equipment) for an optimal distribution of the torque on the front wheels
- Evolves in an effective way as well on roads as on difficult terrain (forest, mountain, etc.)
- Very good grip and surprising mobility for a two-wheel drive vehicle
- Converted vehicle, homologated by UTAC, approved ESP after conversion

Simple and elegant: thanks to its raise in suspensions, PartnerTrek dominates the difficult grounds and allows a safe and comfortable driving on normal roads without any intervention of the driver.

Maintenance and warranty:

Standard guarantee of 2 years (Unlimited mileage).
Service intervals according to base vehicle.

Advantages

- ✓ Raise in suspension (ground clearance of 205 mm)
